

August 16th was the worst day of my life. I had to give the 65 years of caring for my wonderful husband Bernie to the care of the Oasis. This worst day turned into the most wonderful day after seeing the great loving care that Bernie received from the aides, nurses, staff, and all involved assisting. I can't thank everyone enough for this peace of mind that you gave me and my family. The hugs we received and the compassionate talk was beyond my expectations. I saw how they opened their arms to Bernie and how he opened his to them. I knew that the Oasis was now his new home. As much as this hurt, I knew this is exactly what we wanted. Saying thank you seems so insignificant because you folks went above and beyond what we ever could have imagined.

Peace and love to all,
Pat G.
